# Medical Tracker: launching in school

## ABOUT MEDICAL TRACKER

★ Medical Tracker is a student healthcare management platform coming to your school. You can report incidents as they happen – anytime, anywhere. ★

★ The web-based platform enables you to record incidents, illnesses and more, seamlessly informing parents from the classroom or playground. ★

★ The system pulls student and staff data from your MIS every 24 hours, so you are confident you have the most up-to-date information at your fingertips. ★

★ We have created a knowledge base to assist with any queries on day-to-day usage, this can be found here: ★
